Total Facility Protection

Nothing is more important than the well-being of your children.

Sweet Love Kid Play has partnered with Xtreme Hygiene to perform the **X Guard Antimicrobial Misting Treatment** weekly on all indoor playground surfaces in our facility.

- **X Guard kills 99.999% of harmful bacteria...** including e-Coli, Salmonella, Strep, Staph, Listeria, as well as cold and flu viruses.
- **It's safe and non-toxic,** gentle enough for use anywhere.
- **As an EPA Registered Hospital Disinfectant, X Guard** is proven to kill a wide range of viruses and bacteria, but will not contribute to the formation of "super bugs."

Both Sweet Love Kid Play and Xtreme Hygiene want you to be confident that every realistic measure has been taken to protect the health of you and your family.

Reach out to Xtreme Hygiene, *The Sani Expert*, for your facility's sanitation needs.
